

- PHOENIX IMAGES - PHOTOGRAPHER GUIDELINES -

Write a short description about yourself as a photographer.

Present pictures that you believe are suitable for archive, "stock pictures", and can be distributed through Phoenix Images.

The picture collection should include appr. 100 carefully selected images. Low resolution images, for editing purpose, must be in Jpeg format quality 8, resolution 72 dpi. The pixel ratio should be appr 800 wide / high on a horizontal resp. vertical image. All images have to be properly captioned, and the name of the photographer given, in the File Info section. Captions in English, please.

Please note that images you submit to the web archive should be at least 40 Mb (at 300 ppi) - high resolution jpegs converted from tiff or RAW, minimum quality 11. Retouched and colour corrected etc pre compression. The pixel ratio should not be less than 3872 x 2592 (width x height).

Please send the images in a folder (zipped) or on a disc. After viewing your material Phoenix will contact you, normally within a week.

- OTHER CONDITIONS -

Being a photographer with Phoenix Images means that all archive sales practically and financially are handled by the agency.

The photographers share in sales is adjusted to the market. Sales reports are issued quarterly and paid within 30 days.

Phoenix Images presumes that submitted pictures can be used in marketing on the internet and in a digital archive.
